

An Unrivalled Quality Commitment to Microbiology and Chemistry Services.

Our commitment to service and operational excellence means confidence in the results provided to our clients. With locations worldwide that reinforce consistent standard operating procedures, Silliker is the leading international network of accredited chemistry and microbiology laboratories.

Household Consumer Products

Product Due Diligence of Consumer Products

Silliker offers a comprehensive range of services and specialist expertise broadly labelled as Product Due Diligence services.

These services target the retail sector, private label product ranges, importers and agents of a wide range of consumer products. These services extend from foods, cleaning products, cosmetics & toiletries, paper products to almost all consumer items available in the retail supermarket environment.

All quality criteria of products can be targeted and products can be assessed for compliance to specifications. Imported sample products can be assessed and matched to contractual specifications. Product shipments can be subjected to quality control prior to acceptance.

Our Analytical and Consulting Services include:

- ▷ Product stability testing/shelf-life testing (Use by date)
- ▷ Food safety review
- ▷ Auditing of suppliers both local and overseas
- ▷ Levels of specific active ingredients (e.g. detergent concentrations, etc.)
- ▷ Review of Certificates of Analysis from foreign laboratories
- ▷ Compliance to Australian Regulatory requirements
- ▷ Assessment of label claims
- ▷ Data development for label claims
- ▷ Evaluation of antimicrobial claims
- ▷ Biodegradability claims
- ▷ Product quality troubleshooting
- ▷ General analytical chemistry
- ▷ Microbiological contaminants

Silliker microbiological and chemical laboratories are NATA accredited, TGA and APVMA licensed. Our experienced consultants can provide specialist expertise to protect your brand.

To learn how our ISO 17025 accredited laboratories can support your safety and quality programs, contact the Silliker location nearest you or log onto our website, www.silliker.com.
